We intend to implement the following market research processes:

- Market research questions can be incorporated into the online registration process using mandatory fields, meaning that all participants must complete the questions in order to complete the registration process. Where possible, obtain economic impact studies from our government partners, where data has been captured relating to consumption and behaviours of participants.
- Following the event, EGCC will conduct participant surveys, to gauge the success of the event and gather important information for how to improve the event in the future for Sponsors and participants alike.
